Households: Germany

September 2025

Table of Contents

HEADLINES

PROSPECTS

Singleton households continue to lead in Germany, due to demographic challenges

Urbanisation increases with sustainable development, but faces housing challenges

Consumer spending remains cautious despite modest income growth

Digital device penetration and connectivity set for strong growth

Gradual recovery expected for housing market forecasts, even amid affordability challenges

About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings:** Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles:** Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- **Country Reports:** For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.
