Summary 1 - Research Sources

BABY FOOD IN HONDURAS

Key Data Findings

2025 Developments

Birth rates continue declining but need for convenience supports category growth

Nestlé SA retains its outright lead in baby food

Warehouse clubs become increasingly important distributors, although small local grocers remains by far the most popular channel

Prospects and Opportunities

Convenience and time savings drive growth of baby food over the forecast period

Consumers increasingly demand clean ingredients

Special baby milk formula has potential for forecast period growth

DAIRY IN HONDURAS

Key Data Findings

2025 Developments

Imported dairy products increase due to a lack of local dairy production

Lactosa retains the lead in dairy in Honduras

Dairy is mostly distributed through small local grocers

Prospects and Opportunities

Moderate forecast period growth of dairy stimulated by a variety of demands from different socioeconomic groups

Health and wellness trend drives demand for better-for-you products

Scope for child-friendly packaging in a bid to stimulate the popularity of better for you options among children

PLANT-BASED DAIRY IN HONDURAS

Key Data Findings

2025 Developments

Younger generations drive growth of plant-based dairy

The category is still small in the country with only a few brands available

Retail e-commerce is growing, backed mostly by higher-income consumers

Prospects and Opportunities

Forecast period growth of plant-based dairy driven by increasing awareness among wealthier demographics

Dairy intolerances attract lower-income consumers to plant-based alternatives

With the exception of plant-based milk, other plant-based dairy categories remain niche over the forecast period
