Meals and Soups Packaging in South Korea

September 2025

Table of Contents

KEY DATA FINDINGS

2024 DEVELOPMENTS

Packaging demand shifts from traditional categories such as pizza and soup to meal kits, frozen ready meals, and prepared salads

Ready meals has higher packaging demand than soup and sees growth in 2024, as these offer a complete meal rather than a lighter option

On-the-go lifestyles drive interest in self-heating meal packaging innovations

PROSPECTS AND OPPORTUNITIES

Demand for convenient meal solutions expected to drive steady growth in meals and soups packaging volumes

Smaller-sized metal food cans to attract solo households looking for affordable, shelf stable solutions

About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings:** Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles:** Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.
- **Country Reports:** For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.
