TOP FIVE TRENDS IN AUTOMOTIVE AND MOBILITY

Our expert's view of automotive and mobility in 2025

Key findings

INTRODUCTION

Automotive faces slower growth while shared mobility market continues to boom

Top five trends in automotive and mobility

Top five trends uncovered

SUPPLY CHAIN RESILIENCE

Supply chain resilience will be among the top priorities from 2025 onwards

Case study: Hyundai invests in US onshoring to create localised supply network

Case study: GM leans on extensive supplier network and experience to minimise risks

Collaboration and resource sharing can ease the pain of supply chain restructuring

RISE OF AFFORDABLE EVS

Rising cost of living and influx of cheaper alternatives drive focus on affordable EVs

Case study: Hyundai launches trade-in programme to make EVs more attractive

Case study: Volkswagen plans a range of affordable EVs

Offering attractive price and financing deals can help to withstand Chinese competition

MEETING REGULATIONS

Meeting stricter environmental regulations will be critical for the industry's survival

Case study: LG collaborates with Ford to support electrification efforts

Partnerships with tech companies can ease supply chain redevelopment

TESTING SUBSCRIPTION MODEL

Younger consumers are forecast to drive stronger demand for subscription services

Case study: GM is using a subscription model on connected vehicle features

Case study: Honda and Sony collaborate to offer new mobility solutions

Subscription services can help car companies to create more stable revenue streams

RISE OF SUPER PLATFORMS

Ongoing urbanisation and AI to shape the shared mobility market

Case study: Grab implements AI solutions to streamline mobility services

Companies must prepare for stricter regulation, but potential gains are significant

CONCLUSION

Future implications

Opportunities for growth

About Euromonitor International

Euromonitor International is an independent market intelligence provider. Data, insight and analysis stem from in-the-field research spanning 210 national markets.

Content ranges from the in-depth and country-specific, to key strategic themes with a global range and significance. Products cover a comprehensive range of insights and market data, but can be broadly categorised as:

- **Strategy Briefings:** Global or regional in scope, and focussing on the most important themes shaping consumer demand, the key markets, competitive environment and future outlook across a range of industries.
- **Company Profiles:** Analysis dedicated to the world's most significant companies, with detailed insight into their activities, focus of operations, their competitors, their geographic presence and performance.

- **Country Reports:** For an in-depth understanding of specific countries, whether by industry, economic metrics or consumer trends and lifestyles. These reports cover current trends, consumer demand, market potential and future prospects, with country-specific local insight and comprehensive data, unavailable elsewhere.

For more information on this report, further enquiries can be directed via this link www.euromonitor.com/top-five-trends-in-automotive-and-mobility/report.
